

## CURRENT VOLUNTEER ROLES

### Social Centres

Joy! That's the word our volunteers use to describe how they feel when they give their time at the Social Centres. It could be you lighting up a smile on someone's face just because you are there and you listen.

### Social Support

What about a game of cards, reading a book or sharing a pot of tea? These are some of the activities to be enjoyed when Rise Volunteers embark on becoming a Social Support Volunteer. There is nothing better in life than giving a smile to a friend and listening to the stories that unfold.

### Drivers

Imagine suddenly realising you need to get to the pharmacy or you need to go to the physio or even the doctors, but can't get there because you have recently lost your licence or you are not well enough to drive.

Rise aims to fill the gap and ease the stress. Our committed volunteers within the local community provide this service five days a week.

### Corporate Volunteering

Corporate volunteering is recognised as a forward thinking and fulfilling responsible path for corporate bodies to give back to their communities.

Rise offers a multitude of opportunities for Corporate Groups, either for a day or as an on-going project, within our Aged Care, People with Disability, Mental Health or Youth Programs. You can really contribute, gain experience and give joy to those who need it and appreciate it.

### Community Services

Are you a work experience student or a year 8-12 student looking at completing your compulsory hours for study? Rise offers opportunities for all students that offer rewarding beneficial experiences that will offer a multitude of learning and skill opportunities that will assist to guide you to your chosen career path.
